Hi all,

Attached is the narrative in EPA's 319 Guidance that pertains to a leveraged exemption. Also attached are documents and e-mails associated with the leveraged exemption granted to Minnesota. The Minnesota documents show the tracking and accounting system the state established for the projects it included in its leveraged exemption. This provides good insight on the structure used for a leveraged exemption. I think these will help us move forward.

Let me know if you have any questions.

Happy Holidays to all of you. I look forward to working with you in the "319 world" next year!

Alan
